

Project Initialization and Planning Phase

Date	5 July 2026
Team ID	xxxxxxx
Project Name	OptiCrop – Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Farmers need an AI-based crop recommendation system that predicts the best crop based on soil and environmental conditions so they can improve productivity, reduce losses, and increase profitability

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A farmer looking for the best crop to cultivate.	I am (Customer) I'm trying to choose the most suitable crop for my land.	I don't know which crop is best for my soil and weather conditions.	I don't have access to accurate agricultural data or expert guidance	Confused and worried about crop failure and financial loss.
PS-2	A small-scale farmer.	Increase crop yield and income	I often select crops based on guesswork.	I lack AI based recommendations and soil analysis.	Uncertain about my farming decisions
PS-3	A new farmer	Improve farming productivity.	I have limited knowledge of soil nutrients and climate requirements.	I don't have a simple tool to analyze my farm conditions.	Less confident about choosing the right crop.
